~~COLLEGE LIBRARY BUILDING~~

cash \$5000  
of \$2500  
for dormitory  
Bldg.

- Name of College? Soule College.
- Location of College? Dodge City Kansas.
- Date of foundation? 1894.
- If denominational, the religious sect that supports and controls the institution?  
The Methodist Episcopal Church.
- If not under religious auspices, the nature of the support? \_\_\_\_\_

6. Cost and value of the visible plant of the College (Grounds, each Building, etc.)? (Make title of each building explanatory of its use).

	Cost	Value
12 acres in campus Grounds	\$ 1800.00	\$ 6800.00
College Building	52,000.00	63,000.00
Girl's Boarding Hall	20,000.00	26,000.00
Residence for Teacher	1,000.00	1,000.00
Residence for Teacher	1,000.00	1,000.00
Residence for Teacher	1,000.00	1,000.00
Residence for Teacher	1,000.00	1,000.00
Other Plant and Equipment Barn	300.00	300.00
Water Plant	1,450.00	1,600.00

- The amount of the General Endowment of the College? \$92,000.00
- The Annual Amount Expended in running the institution, and the derivation of this amount? Seven Thousand Six Hundred Dollars.

From church collections, private donations, and student's fees.

- How much income from Permanent Endowment? Just received, not yet productive
- How much from Students' Fees? \$1,235.00
- How much from Current Subscriptions and Donations from churches or denominational bodies? \$6,400.00

- What are the Library facilities of the College?
  - Is there a Library Building? No. Two large rooms in College Building.
  - If so, state age, size, and accommodation briefly? \_\_\_\_\_
  - Also state what it cost to build (not site)? \_\_\_\_\_
  - How was it paid for? \_\_\_\_\_
  - What is the number of volumes when reduced fairly to the terms of a practical working collection? Two thousand seven hundred and forty.

\*If no separate building for Library, give particulars of accommodation you use as a Library.

10. What provision exists for maintaining the Library? \_\_\_\_\_

~~Maintained out of general fund.~~

11. How much has been spent in upkeep of Library for each year of past four years?

(Divide answer into money spent on purchase of Books and Other Expenses.)

Books, \$ 50.00  
Other Maintenance, \$ 50.00  
Books, \$100.00  
Other Maintenance, \$ 50.00

Books, \$ 200.00  
Other Maintenance, \$ 50.00  
Books, \$ 600.00  
Other Maintenance, \$ 50.00

12. If College has not a Library Building, from what permanent and assured source is money for upkeep to be obtained, and to what amount can this be guaranteed by the Trustees in the event of a Building being provided?

Private donations for necessary amount.

13. Give particulars of Town Library or other Library in the vicinity of the College?

Carnegie Library building now in course of erection.

14. State the Number of Students attending the College on December 1st of each year during past five years? (Do not give total yearly attendance by adding up number of students attending in different terms of the year, nor count any student twice.)

1901 (47) 1902 (64) 1903 (102) 1904 (126) 1905 (153)

15. State whether the College has a Preparatory Department, and how many of the students are doing regular College work, as distinguished from those who are Preparatory or Special students taking more elementary studies?

About twenty per cent of total number each year in college department, and eighty per cent preparatory and special

16. State in a few words the scope of the institution? Collegiate with Preparatory, Normal, Business and Industrial Departments.

To facilitate Mr. Carnegie's consideration of your appeal, will you oblige by filling in the above, and returning with statement of any other particulars likely to assist in making decision?

It is necessary to give particular answer to each question, as in the absence of such there is no basis for action, and the case will be prejudiced and possibly lapse. Do not answer any question thus: "See letter." If space is insufficient, condense your remarks and amplify in typewritten letter if necessary, but brevity without sacrificing clearness is necessary.

Respectfully,

Jas. Bertram,

Secretary.

Signature E. H. Vaughan  
Designation President

6/23/'06.

Mr. James Bertran,  
#2 East 91st. St.,

New York, N. Y.  
Dear Sir:-

I wrote you several weeks ago in regard to the \$5000. which Mr. Carnegie is willing to give to complete a Dormitory at Soule College.

I stated the reasons why it seems to us, that it will not be possible for us to raise the remaining \$20,000. within any reasonable length of time.

The people are so poor, they have given beyond their ability, and cannot give very much more any time soon.

We are trying to raise an Endowment Fund of \$100,000. I wrote you then to ask if Mr. Carnegie will be willing to give the last \$5000. to complete the \$100,000. Endowment. This to be in place of the donation to the Dormitory.

I hope he will agree to do so. I think it would enable us to complete the amount.

Will you please let me know his decision in the case.

Yours truly,

*E. H. Vaughan*

May 12-1906

Mr. James Bertrum  
2 Court 91st St N.Y.  
Dear Sir:

Your letter of April 24<sup>th</sup> came in due time.  
Since then I have been confined to bed with  
inflammatory Rheumatism, hence the delay in replying.

We are all greatly pleased to learn of Mr. Carnegie's  
willingness to aid in erecting the Dormitory Building  
for Soule College, but we have studied the matter over  
and believe it will not be possible for us to raise the  
remaining \$20,000 within any reasonable length of time.

We are in a new part of the country where the people  
are all poor, many are yet living in sod houses.

We have solicited for money often, during the last  
several years and many have contributed far beyond  
their ability a large proportion of the amounts raised, have  
been in sums of one dollar each, and we find it  
difficult to raise more.

We are trying to raise an Endowment Fund of \$100,000,  
and now have it a little above \$72,000

Would Mr. Carnegie give the last \$5,000 on the \$100,000  
Endowment, in place of giving it for the Dormitory.

If so I think it will furnish a new stimulus that will  
enable us to get the balance.

Yours Truly

E. H. VAUGHAN, D.D.

REV. E. H. VAUGHAN, D. D.,  
President.

April 24th, 1906

President E. H. Vaughan,  
Soule College, Dodge City, Kan.

Dear Sir,

Responding to your communications in behalf of Soule College - Mr. Carnegie desires me to say that he will be glad to give the last Five Thousand Dollars of the twenty-five Thousand Dollars needed to pay for a Dormitory Building when the balance has been collected and expended. If the Building is to cost more than Twenty-five Thousand Dollars it will be necessary for you to collect remaining money needed before calling on Mr. Carnegie for his subscription so that when same is paid there will be no debt left on the Building.

Respectfully yours,

P. Secretary.

Office of

President.

Soule College,  
Dodge City, Kansas.

Mr. James Bertram,  
2 East 91st. st.,  
New York,

April 3-1906.

Dear sir:

Yours of March 31st. is received. In my letter of March 17th I meant to reply fully to the question in your letter of March 14th, in regard to the number of students in attendance at that time. Will you please pardon my failure to make the answer complete.

It should have been as follows: We now have attending the school 87 girls and 64 boys, who require to be housed. That reply is correct for the present time. On September the 1st, 1905 the number of students attending was 153, of this number 87 were girls and 66 boys, On March 1st. two boys left school to go to work at home. It is the purpose of the management, as soon as the financial conditions will justify it, to give free tuition annually, to two missionaries, or two sons or daughters of missionaries. The annual cost of each one would be \$24.00, total \$48.00, and also to give half tuition annually to six sons or daughters of ministers. The annual cost in each case would be \$15.00, total \$90.00.

This will not be done when it would be a burden, nor until the financial condition will justify it. I have completed answer to question 17 and return herewith.

Yours truly,

*E. H. Vaughan*

March 31st, 1906

President Vaughan,  
Soule College, Dodge City, Kan.

Dear Sir,

Yours of March 17th received. Please read our letter of March 14th again. Why don't you tell us just how many boys and girls respectively are attending the school at present who require to be housed, as plainly asked?

You enter the students as 153 on December 1st. How many of those were boys and how many were girls?

With reference to answer to question #17 as to sectarian connection, we require to know just to what extent and to what amount annually such privileges will be given, because Mr. Carnegie will not consider a college where such privileges are excessive or in the nature of a burden.

Respectfully yours,

*End.*

P. Secretary.

Mr. James Beaman  
2 East 91<sup>st</sup> St.  
New York

Dear Sir:

In replying, this morning, to your letter of Mch. 14<sup>th</sup>  
I think my typewriter made a mistake that I failed to correct.  
I write now to correct it, in case I failed to do so.

It is in regard to the difference between the cost of the  
buildings and their present cash value.

I think the difference in case of the college building is \$11,000  
and in case of the girls' Dormitory \$6,000 Total \$17,000

If I did not correct the figures with my pen will  
you please do it.

Yours truly  
E. H. Vaughan

Office of

Saule College.

Dodge City, Kans.

March 17-1906.

Mr. James Bertram,  
2-E-91st. st.  
New York, N. Y.

Dear sir:

Replying to your letter of March 14th ~~we~~ we now have 87 girls and 64 boys to provide with rooms. We have provisions in girls dormitory for all the girls. We have rooms, temporarily, for 28 boys in one side of the college building, 4 in a room. Others are provided for in private families. It is not satisfactory, but the best we can do.

There is no mortgage, and no indebtedness of any kind on the college property. We have not, from the beginning, closed any school year with a deficit in running expenses. To prevent doing so, on several different occasions the trustees, the teachers and a few friends have made special donations. ~~An~~ In four different occasions, in the beginning, the ~~President~~ President contributed his entire salary for the year. All salaries are yet very small, in order to keep the school out of debt.

The difference between the cost and the present value of the buildings is accounted for in the fact that they were erected a few years ago, in the time of very great financial depression in this new part of the country, when the cost of labor was about half as much as it is now. We made the brick on the ground and quarried the stone not far away.

Much of the labor was donated, and not counted in the cost. The balance was paid for in cash at a very low rate.

We have not counted anything for deterioration in the buildings. We replace broken glass and repair damages immediately after it occurs. In fact, the buildings are comparatively new, well insured, and there is very little, if any, deterioration. The present cash value is at least \$11000 more than the cash expended in their erection. All <sup>these</sup> values ~~have been~~ steadily increasing for the last five years. The country is being settled very rapidly and the prospects before the school are constantly improving.

We hope and expect to have 1000 students in the near future, but we are <sup>now</sup> in pressing need of a dormitory to house a 100 boys.

It is 350 miles to the nearest college in each of the three directions (north, south and west.)

The country is in very great need of the work we are doing and hope to do.

If ~~we~~ may have this dormitory for boys it will at once largely increase the amount of good work we can do.

Yours truly,

*D. H. Vaughan*

March 14, 1906

President Vaughn,  
Soule College, Dodge City, Kan.

Dear Sir,

Yours of March 10th received. How many boys and girls respectively have you attending the school at present who require to be housed?

How do you house boys at present?

Please give a note of any mortgage or floating indebtedness on the college and say what the deficit on running has been each year of the last five years.

We ~~also~~ you enter the cost of the college building at \$52,000 and the girls' boarding hall at \$20,000. The value you have placed at \$63,000 and \$26,000 respectively. We never heard of a building increasing in value after it was erected. How do you allow annually for depreciation?

Respectfully yours,

P. Secretary.

Office of  
E. H. Vaughn, D. D.,  
President.

Soule College,  
Dodge City, Kansas.

Dodge City, Kansas, March 10th, 1906.

Mr. James Bertram,  
2 East 91st St.,  
New York.

Dear Sir:-

I have your letter of March 8th, in which you return for correction, our application for boys' dormitory at Soule College. Will you please pardon my mistake? I did not understand that cost of all the grounds must be included in one sum. I have made the correction in application and return it herewith. The condition of endowment, and the reason why it is not yet productive are as follow:

\$50,000.00 interest in an oil refinery, is just received, and we expect a dividend from it Sept. 1st, 1906.

\$15,000.00 railroad stock just received. Returns due August 1st, 1906.

\$2,000.00 is a good personal obligation for cash or its equivalent, due Nov. 1st, 1906.

\$25,000.00 is cash in bank, to our credit. But donor is in hospital, old, and sick with incurable disease. The interest is payable to him during his life.

We did not specify more fully about the dormitory needed, for two reasons:

1st. Your statement about the necessity of brevity.

2nd. Cost of girls' dormitory was stated and a picture enclosed, and we indicated the need of one like it for boys, but hesitated to ask for a definite sum.

The girls' dormitory contains fiftyfive rooms with accommodations for one hundred girls. The first story is stone, and the three stories above are brick, trimmed with stone. Five rooms are used for culinary department, and fifty rooms for two girls each, thus one hundred girls are provided for. The cost of erection was \$20,000.00. Material and labor were cheaper then than now.

I think it will now require \$25,000.00 to erect one like it. It is greatly needed. We desire to have it on the spot in the College Campus indicated <sup>in picture</sup> by "Hall at right not yet erected." Would be glad to build by the same plans used in building girls' dormitory. First story to be of stone, then three stories above to be of brick trimmed in stone, and building to contain fifty-five rooms, five rooms for culinary department, and fifty rooms for two boys each, one hundred boys to be thus provided for.

May we build it and name it Carnegie Hall?

Yours truly,

*E. H. Vaughan*

March 8, 1906

President Vaughan,  
Soule College, Dodge City, Kansas.

Dear Sir,

Yours of March 3rd received. Did you not read in our letter that we could take no notice of general statements. You give no particulars about the Dormitory Building required, how many students it is to be built to accommodate, what is to be the cost of it, nothing. Do you suppose we have the power of divination?

In enclosed schedule there is a footnote in red, so that even if not particularly careful you cannot help noticing it, asking a precise answer to each question. Under question 6 there is a space provided for the cost and value of the grounds and spaces for the cost and values of the buildings. What information does it give about the value of the building if you put in "Residence and Ground"? Please amend the schedule in accordance with the plainly stated requirements.

We don't just understand why your \$92,000 of endowment is not yet productive and is it in cash or securities, or in what form is it?

Respectfully yours,

D. Secretan.

Office of  
E. H. Vaughan, D. D.,  
President.

S O U L E C O L L E G E,  
Dodge City, Kansas,

March 3, 1906.

Mr. Andrew Carnegie,  
#2 East 91st St.,  
New York.

Dear Sir:-

I have Mr. Bertram's letter of Feb. 19th, containing blank application for aid to Soule College, and his suggestion, that in addition to filling the blank, we also state our one most vital need.

I have laid the matter before the Faculty and the Trustees, and it is their opinion, that while we are in very great and pressing need of endowment, yet our ONE most vital need, is a Boarding Hall for boys, to be located at the right, as shown on the enclosed picture.

We have a Boarding Hall for girls, as shown at the left, but no provision for boys. May we have it and call it Carnegie Hall.

We began with nothing, eleven years ago. We have received only one large gift, and have raised all the balance by Church Collections and small personal donations. The property is free from debt, and estimated to be worth one hundred-thousand dollars.

The main College Building is arranged to provide recitation and society rooms for one thousand students, and we hope to have that number in the near future, but up to the present time we have been compelled to spend most of our time and strength in getting the property, hence the school is not yet large, but it will be soon.

It is well located for future patronage, in this new and rapidly growing part of the country, where it is estimated that about six hun-

Mr. A. C. #2.

dred new families are now coming every thirty days.

Kansas, Oklahoma, New Mexico, and Colorado all corner together near here. It is three hundred and fifty miles in each of three different directions (North, South, and West) to the nearest college. We think there is a very great future before this school. Many of the people yet live in sod houses and cannot pay the school expenses for their children, but we are making an Industrial Department, in which they pay their expenses by work. We also have a Normal Department in which we prepare teachers for the public schools, and have requests for about fifteen times as many as we can supply.

We hope to make the school very helpful in shaping the future destiny of this part of the country. We are almost at the beginning of things, and where they are plastic, pliable, and easily molded by the powers that touch them. We are doing all we can, but need to do vastly more. A Boarding Hall for boys would very greatly increase the good we can do.

Hoping that you will let us have it,

I am,

Yours truly,

*E. H. Vaughan*

February 19, 1906

President Vaughan,  
Soule College,  
Dodge City, Kan.

Dear Sir,

We are only now able to take up yours of April 15th, 1905. In filling in the enclosed schedule it is necessary to accompany the summary of facts therein conveniently arranged for our reference with a statement of your one most vital need, as Mr. Carnegie cannot take notice of general appeals for assistance, nor can he consider a request not in modest proportion to what exists already in the shape of building, equipment, endowment, etc.

Respectfully yours,

P Secretary.

Office of  
E. W. Vaughan, D. D.  
President.

Soule College.  
Dodge City, Kansas.  
April 15, 1905.

Mr. Andrew Carnegie,  
New York City.

Dear Sir:

I write you in behalf of the Board of Trustees of Soule College. The object is to inform you of the location of the College, its condition, its work, its purpose, its prospect for the future, and its need of assistance in order to enable it to fully accomplish the work it has undertaken to do.

It is located at Dodge City Kansas, near the corners of Colorado, New Mexico, Oklahoma and Texas. It is a comparatively new part of the country and is being settled by a class of people who are poor, but honest, industrious, good citizens. It is 350 miles in each of three different directions (North, South and West) to the nearest college. There are only a few high schools, and in most of the territory referred to, the country schools are few, far between and not very good.

The country, for 300 or 400 miles around it is largely in its formative period in every way, and the college is greatly needed. We began it ten years ago and have had only one large donation, but have collected all the balance for the property, in very small amounts. The enclosed picture shows the property as it now is, except that the building at the right is not yet erected. A gentleman in Michigan had promised to erect it for us during the coming summer, but we have just now learned that he has had a financial failure, and lost all.

This building is greatly needed as a dormitory for boys. The one at the left is used for girls. We have no suitable provision for boys,

Mr. A. G. -2-

and cannot raise the necessary money in this country, because the people are poor, many of them yet live in sod houses, but their sons and daughters are naturally bright, industrious, desire an education, and are willing to work to earn their expenses while getting it.

We are trying to adapt the school to the conditions and needs of the people. It is good, expenses very low, and those who cannot pay in money, pay in work. We are starting an Industrial Department for that purpose.

We take all the students who come, whether they have money or not. Some of the brightest and best have none, but are working for expenses. We turn this work into the support of the School.

We began with nothing. We have no debts and do not mean to have any in the future. We are making a school that is already a great blessing to the country. We are doing all we can, but need to do vastly more.

Will you help us with the Dormitory for boys, to be known (if you are willing) as Carnegie Hall.

Yours truly,

*E. H. Vaughan* President.

Soule College.

P. S. If you care for further information we will be glad to furnish it, full and complete in every way.

*E. H. Vaughan*

# The College Advance.

OUR MOTTO—ONWARD AND UPWARD.

Volume X

DODGE CITY, KANSAS, FEBRUARY 1905

Number 6

## Character, Intelligence, Purpose, Faith.

Young man you need these for your companions in life. If they journey with you, the mountains will move out of your way as you move forward. Without the first your life will be like a house built on the sand and will crumble down when the storms come; without the others, you will be like a ship drifting at random in an unknown sea, and bounded by an unknown sky, having no chart, no compass and no port in view, and liable to be foundered on the treacherous rocks that be concealed on every side.

Have a character substantial and solid as adamant; have a purpose intelligent, strong and unwavering; then have faith in yourself, in your purpose, and in your ability to accomplish. With this foundation your faith will be as the law of nature embodied in the acorn that makes it superior to its environment, and enables it to turn dew, air, soil and sunshine into an oak. It defies man and beast, earth and sky, to make it produce anything else. Cultivation may affect its quality and training its form, but cannot divert its purpose nor hinder its success.

Self-reliance, faith in yourself, in your purpose and in your ability to accomplish, is essential to success. Without such faith there would have been no Parthenon in Greece, no pyramids in Egypt, no Thermopole, and no Marathon. Without it Hannibal would not have crossed the Alps, nor Columbus the sea.

It is the main spring of human action and moves the machinery of life. Without it no oceans are crossed, no forests are subdued and no civilization established. All we have, and all we hope to have and do, depends upon it, although we may not fully understand the philosophy of its power.

It is like the magnetic needle. Touch a piece of steel with loadstone, and it instantly becomes tremulous with magnetic power that causes it to balance toward the pole. We are so sure that it will continue to do so under all circumstances, in every clime and in every sea, that we risk our lives on the certainty of that fact.

The mariner may guide the ship by the

sun and the stars when they are visible, but there comes the time when the stars are invisible and the sun goes down in darkness; when the tempest is howling above, and there is a wide waste of water on every side, yet in the midst of the darkness and the storm, the captain guides the ships by the compass, because he is sure of the fact that it points toward the north, and though there may be rocks on one side and destruction on the other, he reaches the port in safety.

Young man have character as the basis of all your acts, have a noble and intelligent purpose; have faith in yourself and move forward, for you have the compass that will guide you through the storms and into port.

Soule College is unique in several respects. It belongs to the whole church and is almost centrally located for a patronizing territory larger than several eastern states combined, and is the only school for Christian education. From these and other facts we may learn that "coming events cast their shadows before."

We are making a specialty of the Business Department. Our methods and systems of instruction are the latest and the best, the same as those of the best Commercial Colleges.

## College Training and Leadership.

According to the last report issued by the National Bureau of Education in Washington, D. C., there are now living in the United States 14,794,403 men over thirty years old. A prominent historian and his associates have estimated that 10,704 of these are the most prominent and effective leaders in all the good things that are being accomplished in our country today. They have searched out the history of the life and work of every one of the 10,704, and find the following: among other facts, there is not an uneducated man among them. 1,066 had common school training, 1,934 with high

school training, 7,700 with college training, and 6,129 are college graduates.

They estimate that the common school gives the boy one chance for leadership out of 9,000; that the high school increases his chances twenty-two times, while the college increases them two hundred and twenty-nine times.

## The Needle.

All the children were asked to bring to the grammar class a short original composition about some article they saw in daily use, and this is what one little boy wrote:

"The needle is a sewing tool. It is composed of two parts—the point and the eye. The eye is made of air, and is what you stick the thread through. The point is made of steel, and is what you stick through the cloth."

Wish for health enough to make work a pleasure; wealth enough to supply all necessary needs; grit enough to battle with difficulty and overcome it; and patience enough to toil until some good is accomplished. Wish for a cheerfulness that shall make others glad; a charity that shall see some good in your neighbor, a love that shall move you to be useful and helpful; and a hope that shall remove all anxious fears concerning the future.

## Opportunity.

"Master of human destinies am I!  
Fame, love and fortune on my footsteps wait.

Cities and fields I walk: I penetrate  
Deserts and seas remote, and passing by  
Hovel and mart and palace, soon or late  
I knock unbidden once at every gate.

If sleeping, wake; if feasting rise before  
I turn away. It is the hour of fate,  
And they who follow me reach every state  
Mortals desire, and conquer every foe  
Save death: but those who doubt or  
hesitate,

Condemned to failure, penury, and woe,  
Seek me in vain and uselessly implore—  
I answer not, and I return no more!"

MAR 31 1906  
APR - 6 1906

Memorandum explaining sectarian connection of Soule  
College and the extent to which such connection controls or influences (or may according to its charter, etc., control or influence) the college in any of its work and relations.

Specific answers must be given in spaces provided and not simply references to printed matter. Do not make historical or sentimental digressions tending to obscure the facts.

15. *If denominational, the religious sect that supports and controls the institution, and to what extent such support and control are given and exercised respectively?*

Owned and fully controlled by the Methodist Episcopal Church.

SUPPORT:- About one-third Church collections. About one-sixth student fees, and balance private donations from Methodists, and people of other Churches, and friends who are not church members.

16. *With reference to previous question, state and explain any restrictions on election of Trustees, appointment of President, of Faculty, reception of students, etc.*

Trustees are elected annually by Methodist Ministers, assembled in their annual conferences.

Trustees elect the President and employ the teachers.

President must be a Methodist. Other members of the Faculty must be of Christian character, but may be of other Churches.

Students must be of good moral character, and when coming from other schools must bring certificates of honorable dismissal.

17. *Give particulars of any scholarships or any other privileges whatever extended to sons or daughters of ministers or missionaries, or to any special class connected with the ruling church or any other church or people, and state the amount such special treatment has cost the college each year for the past five years.*

Have not yet been able to do anything of the kind.

It is the purpose of the management to arrange, as soon as possible, to give free tuition to <sup>two</sup> Missionaries, or two sons or daughters of annual cost \$12.00 each & total \$48.00 Missionaries, and half tuition to six sons or daughters of Ministers; annual cost \$15.00 each - total \$90.00.

Work is provided for poor students, by which to earn part or all of their expenses.
